PRESS RELEASE

July 12, 2016 • FOR IMMEDIATE RELEASE

Boca Raton/Deerfield Beach, Florida - Boca Flasher, Inc. one of the industries oldest LED lighting manufacturing company is growing! Boca Flasher is expanding its footprint in the LED Industry to better serve their customers worldwide through the purchase of a 50,000 sf. facility. Integrating a larger office/showroom and a substantially larger production department, as well as a state-of-the-art testing facility that includes a Spectrophotometer & Integrating Sphere System, Boca's expanded engineering department is now staffed with individual experts in electrical, optical, mechanical & digital design with a combined 120 years of experience. This new facility will allow expediting and accurate solutions and advancements, ensuring each product to meet its highest standards in energy efficiency and performance.

"Our team is growing to meet the tremendous growth we have been experiencing. Our engineers have been diligently developing, inventing and testing new technologies to raise the bar in quality and efficiency in the LED industry. Pushing the innovative envelope of technology to deliver important enhancements for lighting designer's & architects worldwide. Creating a brighter, green environment for the future!"

~ VP SALES, David Urban

Currently Boca Flasher has sales representatives throughout North America and globally in Canada, Central & South America, Europe, Asia, Thailand, and Dubai. The staff at Boca Flasher collectively boasts fluency in English, Spanish, Portuguese, Romanian, Korean, Creole and Chinese giving them the added advantage of clear communication with their customers worldwide.

Delivering effective intelligent lighting, providing superior color quality and energy efficiency, the Boca Flasher team is truly pushing the LED Lighting Technology Innovation Envelope! The current product line consists of solid and color changing LED fixtures and light engines. This facility allows all departments from marketing, sales, customer service, engineering, testing technology and production the added convenience of being in-house and hands-on with every member of the Boca Flasher family to insure the highest standard of products shipped to our valued customers.

Boca's core value of respecting the philosophy of hard work, honesty, quality, reliability and innovative lighting advancements is what makes this LED Lighting Manufacturer a global leader in the LED Technology Industry since 1995! Certified minority owned and made in America!
