Micro Profile LED Fixture Line Voltage

Dimmable solid color line voltage fixture for use in visible applications. The Boca Niche-HV is a very small line voltage fixture well suited to visible installations areas where space and energy consumption are constrained. Boca's patented CleanDim® technology ensures even dimming from 0-100%. The Niche-HV can be fabricated with a range of color temperature choices.

KEY FEATURES:

- Compact, variable light fixture for interior use.
- Fixture comes in 4" increments with a 12" minimum.
- Many options in color temperature to suit a range of projects.
Call factory for additional options.
- Fixtures are compatible with both forward and reverse phase dimming or can use Boca's SDS module for 0-10V or DMX Dimming.
- Uses standard line voltage dimming in forward or reverse phase.
- Linkable for longer runs.
- Interior installation use only.
