Triple Diode DMX Controlled Linear LED Fixture

The Boca Flasher Tri-Light is a small profile RGBW color changing fixture that is useful in many lighting situations where color mixing is needed and space is an issue. The TriLight's triple diode color mixing process creates an even wash for color mixing, even at short distances. It can be fabricated with a range of optics and accessories. The housing is anodized aluminum with a durable finish making it weather and abrasion resistant. It is UL Listed for dry, damp or wet location (model dependent).

KEY FEATURES:

- Triple diode ensures even color washing, even at short distances.
- Compact, variable light fixture for dry, damp or wet location use.
- Fixture comes in 6" increments (12" minimum).
- Many options in optics and accessories to suit a range of projects (call factory for additional options).
- Three different types of lenses.
- Can use standard 512 DMX controls.
- Clear anodized aluminum or black finish. Check factory for availability.
- Contact Boca Flasher for tips with custom installations.
- Total linear feet per power feed: 8 ft. RGB, 6 ft. RGBW
